

ResNet Quick Guide: Finding the MAC Address in Other Systems

Google Chromebook

1. Click the **network** icon  in the lower-right corner of the screen.
2. Select your network status from the menu that appears.
3. In the network menu that appears, click the “i” icon in the lower-right corner.
4. Your device's MAC address is listed in the message that appears (e.g. 00:25:D3:39:EC:66).

Amazon Kindle

1. From the Home screen, press **Menu**.
2. Select **Settings**.
3. The Wi-Fi MAC Address is located toward the bottom of the screen in the “**Device Info**” section.

Apple TV

1. From the main menu, select **Settings**, select **General**, and select **About** (on older Apple TVs, just select **Settings** and **About**). The MAC Address is labeled as “Wireless ID”.
2. Alternatively, the MAC Address for both wired and wireless can be located on the bottom of the Apple TV box.

Roku media player

1. From the home screen, select **Settings**, and select **About**.
2. Alternatively, the MAC Address can be located on the bottom of the Roku player.
