

## ResNet Quick Guide: Finding the MAC Address in Handheld Video Game Consoles

Note: RMU's Wi-Fi network does **NOT** support any 802.11b (Wireless-B) devices. This includes the Nintendo Wii, original DS, DS Lite, and the Sony PlayStation Portable.

### Sony PlayStation Vita

1. From the Vita Home Screen, tap the  **Settings** application and then tap **"Start"**.
2. Scroll down and tap the **"System"** option.
3. Tap the **"System Information"** option.

## Nintendo DSi/DSi XL

1. From the Nintendo DSi Menu, select “**System Settings**”.
2. Scroll over to page 3 of the System Settings, and select “**Internet**”.
3. Select “**System Information**”.

## Nintendo 3DS/3DS XL

1. From the Nintendo 3DS Menu, select “**System Settings**”.
2. Select “**Internet Settings**”.
3. Select “**Other Information**”.
4. Select “**Confirm MAC Address**”.
