RMU IN THE HIGH SCHOOL

OVERVIEW

Now more than ever, students face unprecedented challenges in preparing for the competitive workforce. Traditional education models struggle to keep up with evolving industry demands, leaving students feeling unprepared and overwhelmed as they enter higher education or their careers.

RMU in the High School programs bridge the gap between secondary education and the professional world by providing early access to higher-level courses, hands-on-experiences, and practical skills development. Research has proven that students who participate in a high quality program:

- Are more likely to meet college readiness benchmarks
- Are more likely to graduate college with 4 & 6 year degrees
- Spend less time and money to attain a bachelor's degree

Your school and RMU have made certain that your student has a unique and valuable opportunity that seamlessly integrates with your school's curriculum.

At RMU, we see things in students before they even see it in themselves, and we take them and their future seriously.

Our program goes far beyond typical college in high school offerings by not only offering the access to higher-level courses, hands-on experience, and practical skills development one would expect; it also provides students with career exploration opportunities via immersive experiences provided by RMU faculty.

GET A HEAD START ON COLLEGE

RMU in the High School is offered at a flat rate of $250 per course. Credits are transferable and can help students save money on college tuition.

SCHOLARSHIP

When students successfully complete one RMU course, they will be eligible for a $1,000 scholarship on top of their merit scholarship. Students can apply for free at rmu.edu or contact us for further details.

GETTING STARTED IS EASY

The best way to get started is for students to talk to their school on how to begin taking college-level classes while still in high school. Connect with us for a professional consultation and to find out why RMU in the High School offers so much more for your student than the typical college in high school program.

CONTACT

If you have any questions, please email us at **highschool@rmu.edu**.
